How often do you dream?

Are your dreams usually weird?

Do you often get nightmares?

What's a memorable dream you've had?

Have you ever died in a dream?

Have you ever met a dead relative in a dream?

Do you ever write down your dreams?

Why do you think people dream?

Do you believe dreams reflect issues and problems in our lives?

Have you ever had the same dream as a friend or relative?

Do you believe dreams can prophesy the future?

If you had a dream about winning the lotto would you be more inclined to buy a ticket the following day?
