

Space and Aliens

Do you find astronomy interesting?

Have you ever looked through a telescope? What did you look at?

What planet do you find the most interesting? Why?

Would you ever consider becoming an astronaut?

Would you like to take a tour into space if it became possible? Where would you like to go?

Do you believe people will live on Mars in the future? Would you consider living there?

Do you believe we are alone in the universe or do you think extra-terrestrial life exists?

Do you believe in UFOs?

Do you agree with the view that alien life may be a threat to Earth?

Should we try to make contact with aliens or is it too dangerous?

What do you think aliens are likely to look like?
